

Dear Parent/Carer,

We are giving several students the opportunity to attend targeted Science revision during mentor time before their practice exams in weeks 33 to 35 of June 2024 (w/c 03/06/24 to w/c 17/06/24). We have identified «Forename» as a student who would benefit from these sessions following their paper 1 practice exams and teacher recommendations.

The sessions will run on a Tuesday, Thursday, and Friday for the next 3 weeks. «Forename» will attend their usual mentor group on a Monday and Wednesday and they will be expected to attend Science mentor time for the remainder of the week, being registered during the Science mentor session.

Each week we will focus on key revision areas for the paper 1 mock exams. Science mentor time is in addition to other revision strategies being put in place by the Science department. We appreciate your support encouraging «Forename» to attend these sessions.

Subject	Topics
Biology	Cell Biology Infection and Response Bioenergetics
Chemistry	Bonding, Structure and Properties of Matter Quantitative Chemistry Chemical Changes
Physics	Energy Electricity Atomic Structure and Radioactivity

Yours sincerely,

Rachel Beatson
Curriculum Area Leader for Science
